SUMMARY

I am a dedicated WordPress Developer with over 2+ years of hands-on experience in creating high-performance, secure, and fully responsive websites. My expertise lies in building and customizing websites using Elementor Pro and WooCommerce, with a strong focus on speed optimization, security, and user functionality. I take pride in delivering clean, stable, and client-ready solutions from setting up hosting and SSL to configuring essential plugins and managing site migrations. Passionate about solving problems and constantly learning, I strive to ensure every website I build not only meets but exceeds client expectations.
